My dear friends,

I bring greetings from the family of People's college. I am pretty sure that all of you reading this message are keeping well.

As the second wave of the covid-19 pandemic ravages through every part of our country, its impact too is being experienced by the People's college family. Though the virus has not impacted directly any of the college students and the staff, the college had to close down as a precautionary measure, due to the spread of the virus in the state.

In such a situation having experienced last year with the online classes, the college quickly adopted to the online classes and at present is following Nagaland University's directives of conducting the online examinations.

We are well aware that the entire world is under some sort of restrictions and the pandemic is causing untold miseries to many. However let us keep in mind that this situation will pass through and we can remain safe by following the simple rules of wearing a face mask, getting vaccinated, keeping the social distance and avoiding unnecessary outings. Let us be vigilant and continue working from safety with a positive attitude.

I pray that the family members of People's college will be resilient and will be blessed with progress and prosperity.

Thank you.
